## TELEGRAMS
TO
STANDARD.
*By direct cables via Lisbon.*

Cairo, 6th—There is great anxiety in all Egypt owing to the false gold coin in circulation, as it is feared that this may lead to some fresh financial complication with England.

Paris, 6th.—President Carnot is still receiving enthusiastic ovations at Chambery, which town was profusely illuminated last night.

When receiving the authorities, President Carnot expressed to the Mayor his pleasure at the welcome accorded to him by the Savoyards, who had shown so eloquently their adhesion to the destiny and institutions of France.

Palermo, 6th—A bloody fight has taken place between the gendarmes and the banditti. Two of the latter were killed and others wounded. Some of the genedarmes were wounded.

The troops and gensdarmes are vigorously pursuing the several gangs of banditti on the island, and it is hoped the latter will be wiped out.

Havre, 6th — Cholera is decreasing here, and only some isolated cases are now reported.

Berlin, 6th—The papers here attach no importance to the interview between de Giers and Ribot.

The *North German Gazette* laughs at the course taken by the French statesmen. It says they are aiming to imitate the Ministers of the Triple Alliance, and would like to follow the example of Bismarck, Crispi and Caprivi. It adds that the interview at Aix-les-Bains, asked for by France, in spite of the indifference of Russia, is of no greater importance than the visit of the French squadron to Cronstadt, which had no effect on the European situation.

*(Per Havas Agency.)*

Paris, 6th—President Carnot returned to-day from Chambery and left at once for Fontainbleau.

Genoa, 6th—The dock labourers' strike is over, the masters having partially increased wages.

Berlin, 6th—Government has resolved to abandon the autumn manœuvres.

Toulon, 6th — The Argentine warships left last night for Genoa.

*(To the "Prensa".)*

London, 5th.—The *Times* correspondent in Berlin says that it is probable Caprivi will propose several new military Bills. Parliament will vote seventy millions of marks for army purposes, and the taxes on beer and tobacco will be increased to meet the fresh burden.

Cholera has again slightly increased in all the infected places.

In Hamburg it is thought that the worst is over. No fresh cases in the United Kingdom.

In Berlin the authorities have closed the public baths.

New York, 5th.- Four deaths from cholera on board the vessels in quarantine.

Rouen, 5th.—Seven fresh cases and one death here.

Paris, 5th.—Forty-one fresh cases and four deaths here.

Boston, 5th.—The poet Whittier is dying.

Tangier, 5th.—It is said that the Angherites have proposed such humiliating terms for peace to the Sultan that he cannot accept them.

Naples, 5th.—The old Palace in the Via Taveina fell to-day and many people were buried in the ruins.

Alexandria, 5th.—The cotton crop in Egypt this year is estimated at 427,000 bales, the largest on record. The price is low.

St. Petersburg, 5th.—The Czar is greatly annoyed at the fight between Russians and Afghans at Pamir, and has disapproved the conduct of Colonel Yanoff, Commander of the Russian forces in Central Asia, as he does not consider it prudent to provoke a war with England.

## THE QUESTION OF EGYPT.

Yesterday's telegrams afford ground to suppose that the British Government at last meditates the evacuation of Egypt, after a military occupation of that country during almost ten years. It was on Jan. 18th 1883 that the Khedive Tewfik abolished the Dual Control, whereby France and England had governed Egypt since 1878, and placed the country almost on the footing of a British Colony. This was not done at the instigation of the British Government: on the contrary Mr. Gladstone had repeatedly urged Pres. Grevy to combine with him for a joint occupation of Egypt, but in vain, and it was essential at the time that some European Power should take Egypt in hand.

At the time of the occupation Mr. Gladstone gave assurances to all the Powers that G. Britain would evacuate Egypt as soon as a proper Government should be in a position to hold its ground and administer affairs on a sound and secure footing. France has always treated this assurance as a ruse of Perfide Albion, and it must be confessed that there is a large party in England determined if possible to hold Egypt in perpetuity, on the plea that the security of our Indian Empire demands it.

But, as Mr. Gladstone now finds himself again at the head of the British Government he feels, doubtless, that his honor is at stake, and that the evacuation of Egypt cannot be put off indefinitely. He knows, moreover, that the good-will of France cannot be purchased on other terms, and he thinks perhaps that a renewal of friendly relations between France and Great Britain would be a counterpoise to the Triple Alliance and an additional guarantee for the peace of Europe.

The bulk of the Radical party will welcome the prospect of evacuating Egypt, for it is a significant fact that even before Mr. Gladstone had kissed hands as new Premier Mr. Labouchére gave notice that he would bring in a motion to that effect.

It is, however, by no means clear that the various sections of which Mr. Gladstone's party is composed will be unanimous on this subject. The question of Egypt may precipitate a crisis as soon as Parliament meets in November, and if the new Government were defeated on so important a matter of policy the inevitable consequence would be either another general election or the restoration of the Tories to office.

At all events it is by no means likely that Mr. Gladstone would venture to recall the British army from Egypt while Parliament is in recess, without consulting public opinion or the sentiment of the House of Commons.

## THE PROSPECTS OF PAPER-MONEY.

So salutary has been the impression on the public mind consequent on Dr. Romero's appointment to be Finance Minister in the cabinet of the new President that many persons whose opinions ought to command attention predict that by Christmas the gold premium will not exceed 150 per cent, some even say 100 per cent.

Predictions of this kind cost nothing, but may do some harm. The probability is that if any sanguine person were to carry out a business transaction on the assumption of seeing gold at 150 premium next Christmas he would meet with a serious disappointment. So long as the amount of currency in circulation is 265,000,000$ it is practically impossible for the price of 100$ gold to fall so low as 250$ currency.

Confidence, of course, can do a good deal, or rather the want of it can produce a most injurious effect on shinplasters, but whenever the trade-requirements of a country are fully served by a sum of 90,000,000$ (whether in gold or in paper) the excess of issue over that sum must deteriorate inconvertible notes in proportion. We may remind our readers that when Gen. Roca retired from office, in Oct. 1886, the currency did not exceed 70 millions.

Let us suppose that, in view of the increase of population, the country now requires 90 millions; as the issue is $265,000,000 the value of the paper dollar must be more or less 33 cents.

If by any chance gold should fall much below 300 in the next 12 months (unless considerable sums of paper-money be burnt) the result will be a contradiction to all the laws of supply and demand.

This reminds us that we have received several communications enquiring as to the prospects of the wool season causing a fall in the gold premium. In days of old there was a common belief that the premium fell with the wool season, but we are not sure that the rule was a safe one.

Meantime we present our readers with the quotations for the present year, viz:

Price of 100$ gold

| | Highest | Lowest | Average |
|---|---|---|---|
| January.... | 387 | 371 | 380 |
| February.. | 389 | 336 | 365 |
| March .... | 352 | 340 | 346 |
| April ..... | 348 | 332 | 341 |
| May ...... | 336 | 324 | 330 |
| June ...... | 331 | 304 | 317 |
| July....... | 331 | 311 | 323 |
| August.... | 332 | 321 | 326 |

The premium was highest in the summer months when our export trade was brisk, and has averaged only 222 per cent in the last 3 months, with diminished exports. It may be said, however, with much reason that the election of Dr. Saenz Peña has promoted confidence and thus led to an improvement in the last three months.

In the subjoined table will be found the fluctuations from month to month as compared with the ruling price of the year, the sum of which is therefore taken as 1,200.

| | 1888 | 1889 | 1890 | 1891 |
|---|---|---|---|---|
| January.. | 98 | 84 | 88 | 86 |
| February | 100 | 86 | 88 | 90 |
| March... | 102 | 88 | 99 | 94 |
| April.... | 99 | 88 | 103 | 93 |
| May..... | 100 | 87 | 91 | 102 |
| June..... | 102 | 91 | 93 | 103 |
| July ..... | 104 | 96 | 112 | 102 |
| August... | 101 | 98 | 99 | 107 |
| Sept..... | 100 | 112 | 94 | 109 |
| Oct...... | 100 | 118 | 98 | 114 |
| Nov ..... | 98 | 123 | 114 | 100 |
| Dec...... | 96 | 129 | 121 | 100 |
| Year.... | 1,200 | 1,200 | 1,200 | 1,200 |

The summer season ends Feb. 28, the autumn May 31st, and so on. The mean averages for the seasons give the following results for the 4 years:—

| | |
|---|---|
| Summer....... | 291 |
| Autumn........ | 287 |
| Winter ......... | 302 |
| Spring ........ | 320 |
| Year...... | 1,200 |

From the foregoing it appears that the gold premium was highest in the Spring quarter, namely the months of September, October and November, and lowest in the Autumn, that is in the months of March, April and May. Hence we are disposed to think that the seasons have little or no effect on the value of paper-money, for, if the wool-theory were correct the premium would be lowest in the summer months, of November, December and January.

Our own theory always has been that the value of the paper-dollar depends on the amount in circulation, not on the quantity of gold in the market (so long as the notes are inconvertible). We might even have the paper-dollar at or about par, without an ounce of gold south of the Equator, provided the amount were no greater than the needs of our trade and population. In Canada, for example, paper money is at par, although the stock of coin hardly reaches one-third of the issue.

## LATEST FROM CHILE.

Valparaiso, Aug. 13.

The law authorising the President of the Republic to issue Bonds for £1,800,000 has been promulgated. The bonds are to bear interest at the rate of 5 per cent per annum, and to have a cumulative sinking fund of 2 per cent per annum, the interest to be paid in sterling in Santiago, London, Paris or Berlin at the option of the bondholders. The sinking fund may not be augmented nor the debt be totally paid off until three years after the date of issue. For the service of this loan the President is empowered to augment in the necessary proportion the quota of nitrate duties payable in Bills on London. In the event of the President considering the tenders for these bonds inacceptable, he is empowered to issue bonds of 18,000,000 dollars, payable in legal tender currency, bearing interest at 6 per cent annually, and with a cumulative sinking fund at the rate of 2 per cent. per annum.

It is currently reported that the Government has received offers from several European banks to subscribe the whole of the loan for £1,800,000. There will not be the slightest difficulty in obtaining the loan whenever the Government may require it, but the present opportunity when money is abundant and cheap ought not to be lost sight of.

How times are changed! In years gone by when Chile required a loan a special commissioner was sent to London to negotiate it, and the operation sometimes involved a delay of several months. There were always lots of aspirants for the position, because in addition to the honour of being a Special Envoy the negotiator was entitled to a return commission which went a long way towards consoling him for his temporary ostracism. There was, however, one negotiator who flatly refused this kind of consolation.

A subscription is being made to defray the cost of a monument in honour of the late Ecclesiastical Governor of Valparaiso, the Rev. Salvador Donoso, and it is understood that any deficiency will be made good by Agustin Edwards, Esq., who offered in the first place to defray the cost of the tomb and monument. Many persons, however, having expressed a desire to contribute to the monument which is intended to perpetuate the memory of the deceased clergyman, Mr. Edwards has deferred to their wishes.

The remains of the late Ecclesiastical Governor were deposited on Wednesday in the vault which was specially built for their reception at the foot of the altar of Our Lady of Carmel, in San Agustin church. A requiem mass was celebrated by the curé of the church, and the sacred edifice was filled to overflowing, and many of the congregation who had attended the ministrations of the deceased clergyman during many years were moved to tears. It was a sad and affecting ceremony.

The report of the Compañia Minera San Agustin de Huatajaya for the half-year ended June 30 is very nice reading for the shareholders. During the period just mentioned the output of ore amounted to 22,163 metric quintals of ore which yielded 11,500,000 kilograms of fine silver of the value of $666,000 dollars. The expenditure amounted to 125,500 dollars, the net profit being 534,000 dollars. During the half-year 557 metres of adits were driven representing 18,000 days' work. The capital of the company is 375,000 dollars.

During several days past a Municipal Committee has been inquiring into the antecedents of several members of the police force, and according to what has transpired there appears to be no doubt that the corps requires to be subjected to a regular weeding out process. It is quite possible that the force will be thoroughly reorganised, and that it will be deprived to a great extent of the military element.

The financial measures of the Government have undergone some changes in Committee, but substantially they are the same as previously reported. The bill to legalise contracts in foreign money has as good as passed the House, and the bill to reform the currency and to provide for the redemption of the Paper Money may possibly pass the House next week.

Capt. Selmer of the Maipo reports that on the night of the 31st ult., in the latitude of Cobija, at a distance of about 17 miles from land, in lat. 22°30" and long. 70°35' W., he sighted what appeared to be the masts and spars of a sailing vessel, and five miles farther north he saw a large quantity of lumber which probably formed the cargo of the vessel to which the spars belonged.

The total of the customs receipts in eleven custom-houses in June amounted to 4,302,000 dollars. The eleven custom-houses are Arica, Pisagua, Iquique Taltal, Tocopilla, Carrizal Bajo, Coquimbo, Valparaiso, Talcahuano, Coronel and Mellipulli.

The Quillota Gas Co. is paying a dividend of 4 per cent. for the half-year ended June 30.

Mr. Abraham Guttman, a well-known money dealer, committed suicide yesterday morning by shooting himself in the head. It appears that he left his house in the Plaza de la Justicia about nine o'clock on Thursday evening, and after that hour he was not again seen alive by his family. The deceased came to Chile on the breaking out of the war with Peru, and it was generally believed that during that struggle he gained a large sum of money. Latterly he had become involved, and it is supposed that pecuniary embarrassments impelled him to take his life.—*Chilian Times.*

## LATEST FROM MONTEVIDEO

Tuesday Evening.

Yesterday the tugs Malvinas and Emperor returned from Punta de Indio bringing in tow the British barques Alice M. Claridge and Minnie G. Whitney, which had gone aground off the Punta. The captain of the last named went immediately to the Port Captain to depose that one of the crew had been knifed by another while the vessel was aground.

Owing to bad weather, the cargo of the Italian steamer Orione was somewhat damaged on her way out.

The Custom House yesterday handed $12,408 to the London Bank.

The death is announced of Señor Santiago Saroldi, and old resident and merchant of standing.

The War Minister has ordered many improvements to be made in the Flores Island Lazaretto.

In political and financial circles the appointment of Kubly y Arteaga to close the loan negotiations in Paris is unfavorably commented on. In connection with the loan, a good joke was perpetrated last night in the Club Montevideo, where the following telegram was posted up from Señor Casaravilla, Paris:—"Embarcaremos la plata cinco." This was supposed to be the loan money by all who read it. The real meaning of the telegram was that Mr. C. leaves in the La Plata on the 5th.

Mrs. Angela Gord, mother of the state-accountant, is seriously ill.

Last night Joseph Benjamin Pidwell, cashier in Jackson's barraca, committed suicide by stabling himself.

No steamer leaves this evening.

## THE NATIONAL THEATRE TRAGEDY.

It is needless to recapitulate the deplorable circumstances of this tragedy, but a reference to the antecedents of the case will be read with interest. Genazzini came out the other day from Italy in the Po, in company with Scalaberini, Signora Tetrazzini's husband. Scalaberini came to look for his wife, and Genazzini, who seems to have been a friend of his, offered to help him. Scalaberini landed in Montevideo, while his friend came up to B. Ayres. Genazzini soon discovered the whereabouts of Signora Tetrazzini, and telegraphed to the husband, who immediately came up. The two friends took rooms in the Grand Hotel. It was at this time that the Tetrazzini scandal found its way into the papers, a circumstance that, according to the *Argentino*, furnished Genazzini an opportunity of endeavoring to bring himself before the public, by challenging the Editor of the *Nacion* to a duel. Our contemporary, knowing nothing of the antecedents of the man, refused, whereupon Genazzini threatened to slap him in the face in the street. Genazzini made the acquaintance of young Arnold in the National Theatre, the latter being theatrical critic for an evening paper and the former being on friendly terms with some of the artistes. One night, behind the scenes, Genazzini met young Arnold and taxed him with having cut him in the street. Mr. Arnold presented his excuses and stated that he had had no intention of cutting him and that moreover he had no recollection of having met him in the street. The explanation did not satisfy Genazzini, who would appear to have been seeking an opportunity of fighting a duel. The next day he sent his seconds to Mr. Arnold, who refused to fight with a person whose antecedents were entirely unknown to him. Genazzini than threatened to slap him in the face on the first opportunity. Mr. Arnold then informed the Chief of Police of his threat and also reported the affair at the Police Station of the first section, so as to save his responsibility in case of anything happening. A few nights subsequently the tragedy occurred.

It appears that Genazzini was an excellent swordsman and a first class shot. It is said that he was at one time lieutenant in the Italian army, which he left owing to some question, perhaps a duel, with the commander of the regiment. He himself stated that he had come here commissioned by the Italian Government to buy horses. He is supposed to have longed to a distinguished family. He was of a very violent disposition, of middle height, with small, black moustache, and of a fresh and youthful appearance.

The *Nacion* yesterday published a statement made by Mr. Arnold to the effect that Genazzini was introduced to him as an agent of the Italian Government for the purchase of horses. The *Nacion* contradicts the report that Genazzini had challenged its editor to a duel.

## ENTERTAINMENT AT LOMAS.

Attracted by the admirable programme, which appeared in the STANDARD on Saturday, of the musical and dramatic entertainment to be given that evening at Lomas, in aid of the funds of the Academy Club, we wended our way as the evening sun got low to the Plaza Constitucion Station of the Southern Railway and shortly afterwards were landed in the green suburb, in which, save for the clamour of the "cocheros," a deep stillness reigned.

Reaching the door of the Italian Hall and obtaining tickets from a consequential-looking Lomasito, who, arrayed in the glory of swallow-tail and white tie, was seated at the receipt of custom, we enquired for programmes, and were informed by the before mentioned youth that they would be forward in half an hour. With deep regret at not having brought the STANDARD in our pockets, we entered the Hall and were conducted to seats by several of the enthusiastic members of the Club, who, each spurting a bit of the blue ribbon in the button-hole, caused the orphan of our crowd to remark that some exceptionally gifted temperance lecturer must have visited the ground the day before.

It was now 8.15, and the throng of fashion and gaiety showing signs of bewilderment at two immense blackboards that were facing them on the stage, a youth entered and chalked upon one the words: "The programmes will be for sale late on Monday morning." Simultaneously the other was reversed, displaying the names of the artistes who were now to favour the company with song, speech and dance.

Miss Mackern led the van with a pianoforte solo, which to us seemed not to receive from the audience the reception which the rendering deserved. Next Mr. Hemans sang "London Bridge" fairly well, though we think his voice would be decidedly the better of a little modulation. Mr. Smith gave "The Signal she knows" well. Mr. Harry Scott sang "I'm off to Philadelphia" to time and tune, but his brogue was not that of one from the green isle over the sea. Mrs. Fitzgerald, who is gifted with a sweet and pleasing if somewhat weak voice, gave "Wishes and Fishes," and Mrs. Gould "Good night."

Señor Pini, whose name figured for a violin solo, did not put in an appearance, which was much to be regretted, as his well-known ability as a violinist would have lifted the performance far beyond the level of the mediocrity of most amateur events.

The second part of the programme, "The Rosebud of Stinging Nettle Garm" burlesque, included many telling local bits. The once famed Harriers were reminded that the roads were good, and that the hunt ball would be the thing. The Southern Railway trains, it was stated, might be got to keep time. The STANDARD's welcome on 'Change, umbrellas up and gold down again figured 'tambien'; and, as all seemed to wish to get away, there was no need of the special train to convey us back to the capital, as at 10.15 all was over and we were on our way to the station, feeling not displeased at the resources of the Lomas Academy Club in the way of raising the wind by making use of its members' undoubted talent in speech and song for the amusement of us below.

## ALFA CULTIVATION.

Mr. Editor,

Your issue of the 1st inst., contains a letter signed H. B., in which your correspondent casually referring to my humble self, expresses a wish to know the results achieved in working the estancia Espinillo in Rio Cuarto, of which property I was manager and co-proprietor with Messrs. Funes, and in which I still retain an interest. Our experience proved once more the results obtained in the business in Chile viz: that you can safely and for any number of years mow alfa three times every season, leaving the last crop to be grazed off. The land is not exhausted by following this system, and, moreover, the value for fattening winter stock is superior to that which would be obtained by the sale of the light fourth cut.

The fair average yield of baled hay was six tons for first cut, five tons the second and four the third. Of course, this amount varied somewhat as the seasons did, but this was the average of four years working.

Our system of baling was by chopping the hay in chaff cutters and then pressing by hydraulic machinery thus obtaining bales of about 90 to 100 kilos each in weight and measuring in inches 36x24x20.

The financial results of the four years working were excellent, as we produced from 3,000 tons in the second year to 4,000 tons in the fourth year at a cost of $9.30 including everything up to loading in railway waggon; our distance from station being one and half leagues.

The price obtained averaged $20 per ton. The tops and bottoms of the stacks were used for feeding stock and weathered hay was dried and used as combustible for the boiler. The squares of alfa under cultivation were seven hundred; of these 250 were mowed three times, 100 had two cuts taken off and 50 squares were only cut once during each year, the remaining fields were for the invernada which during the winter had the advantage of the grazing from the whole seven hundred squares. We thus were enabled to fatten as many steers as had been previously done when making hay was as yet unknown in the place. In 1889 the establishment was sold, but the buyer being unable, owing to the crisis supervening, to complete the purchase, we rebought the place, and it is now worked by Mr. Silvano Funes, he having rented it from the other partners, one of whom is

## THE CASE OF WILLIAM NORMAN.

Villaguay, Entre Rios,
Sept. 1st

To the Editor of the *Herald*.

Dear Sir,

I am anxious that English and American readers should learn the result of the affair of Willam Norman of Villaguay, a land-grabbing case of which you appear to have had sparse information.

I regret to have to state that, on application to the British Vice-Consulate in Paraná, which being the seat of government was undoubtedly the nearest head-quarters, we were told it was not in their department and that we had better apply to Concordia. We of course did nothing of the kind, but went direct to Governor Hernandez, who sifted the affair with the utmost promptitude, and his decision having been taken, he ordered by telegraph the immediate release of the prisoner. This, I think, deserves full publicity, if only to let the English-speaking people in Entre Rios know that they can go to head-quarters and get a square deal. I think that the prompt action of Governor Hernandez in this matter is deserving of the highest praise and merits the thanks of us all. We know, now, if a similar occasion should arise, to whom to go and to whom *not* to go.

Yours faithfully,
*H. P.*

## PRECAUTIONS SANITARY.

Sept. 2nd.

Mr. Editor,

Now that we are exposed to a visit from cholera, perhaps you will let me tell you how we once elsewhere fought and drove back the plague with very little loss. A committee was appointed in each "cuadra" to see that the following rules and regulations were carried out:—

All houses where necessary were whitewashed in every available space, both inside and out; the w. c. thoroughly disinfected every day, and the Municipality well flushing and disinfecting the drains. The Municipality supplied the lime, disinfectants and labour, but ninety per cent of the work was done by the citizens themselves. The following printed instructions as to what should be eaten, drunk, etc., were freely posted up over the town, and any one found breaking those rules was heavily fined. All water and milk had to be thoroughly boiled, food cooked natural, abstinence from alcohol and fruit, and the free use of tobacco, especially in the form of a "chaw", was recommended; also cleanliness of person, the use of a flannel belt, etc. etc.

Having seen the above acted on with perfect success, I have every confidence in its perfect efficacy.

Yours in dread,
*Mick Robia.*

## ROSARIO ATHLETIC SPORTS.

Sept. 5th.

Mr. Editor,

That your numerous readers may not form an erroneous opinion of our Athletic Sports, held here on the 30th ult, through reading the remarks made by your correspondent W. P., in your issue of the 2nd inst., I beg to mention that instead of $3 the entrance fees were 50 cents and $1, and $2 extra to the grand stand; the last charge was not, lower, so as to keep it amongst the elite, and we were glad to see that, in spite of the "preposterously high" rate, the grand stand was, by one o'clock, filled with the elite of the Rosario families.

As regards the fencing in of the field with canvas, W. P's. uncalled-for strong expressions, such as "dog-in-the-manger-arrangements," we would refer him to *Sport aud Pastime*, which paper suggests "that a proper canvas be erected next year to completely prevent those outside from seeing what was going on."

## RAILWAY ITEMS.

The traffic returns of the Chubut Railway in July last compare as follow:—

| | 1891 | 1892 |
|---|---|---|
| | $ | $ |
| Gross receipts...... | 6,805 | 10,403 |
| Working expenses | 2,651 | 2,969 |
| Net.......... | 4,154 | 7,434 |

The kilometrage during the same month compares as follows:—

| | 1891. | 1892. |
|---|---|---|
| Locomotives...... | 1,063 | 1,802 |
| Carriages ........ | 700 | 1,470 |
| Waggons ........ | 13,200 | 15,400 |
| Total..... | 14,973 | 18,672 |

We take the following from the *Railway News*:—

The traffic receipts this week for seven principal Argentine Railways aggregated £51,385, against £43,464 in the corresponding week of 1891, the increase for the current year being £6,921, or 18 per cent.

The mileage open to traffic on revenue account was 3,663 in 1891, compered with 4,013 in 1892, an increase in the latter year of 9·6 per cent.

The average receipts per mile per week were £12.16s.1d this year and £11.17s.4d last year, an increase of nearly 8 per cent in 1892.

The approximate value of the £ sterling was $20 in 1891 and $16.50 in 1892, exhibiting an appreciation of 21 per cent in the currency this year. Taking into account the higher value of the paper dollar, the aggregate receipts for the week are three per cent under those of last year, and the receipts per mile of line 13 per cent lower.

The East Argentine Railway receipts compare very favourably with those of the corresponding period last year, being in fact three time as great for the week, and showing an increase of £1990 for the year.

## EDITOR'S TABLE.

The sudden downward swoop of the Thermometrical Eagle yesterday as compared with Monday's temperature sent many wheezy people to bed, and caused top-coats, fur boas and winter "abrigos" of all kinds to reappear like magic. An additional feeling of cold-water-down-the-back was caused by a rumoured "caso sospechoso" of cholera in town. Nothing more probable; but those who stick to boiled water and their usual diet and refuse to be frightened can defy the Asiatic visitor. Above all, don't bolt to the camp, out of reach of a telephone to summon the family doctor.

The suspicious case of cholera that startled the town yesterday is that of a Frenchwoman living at the North end, and only two years in the country. The really curious part of the case is that the only imported person or thing she has lately come in contact with is a letter received from a relative in France a fortnight ago. This would argue that cholera, like influenza, its precursor, can be transmitted through the mails.

The National Senators were disinclined for public business yesterday, and no-quorumed.

The mails for Europe by the steamer Rio can be posted up to noon to-day.

On account of Thursday being a holiday, the Scotch Church Young Men's Society will meet this evening at 8 o'clock, when an Essay will be read on "Charles Dickens."

Madame Paoli Bonazzo, the charming prima-donna in Signor Tomba's operatic company, takes her benefit to-night in Cavalleria Rusticana. The gifted diva has afforded the public so many delightful evenings that her gala night will be a trysting place for her legion of admirers. In Cavalleria Rusticana, Signora Bonazzo sings and acts to great advantage, the difficult role suiting her voice and presence. The diva deserves a bumper and a full house.

The Italian Opera Company of the National Theatre have left for Rosario for a fortnight. The National Theatre will remain closed meantime. The 'impresario' Sr. Bernis, thinks that a change of air will do the company good after the recent tragic incident last Thursday during the rendering of Traviata.

A sense of gratitude for favours to come has led several obsequious friends of the President-elect to send him presents of more or less value. He has sent them all back. Bravo!

This evening at 8.30, Mr Albert E Blanchard will deliver his lecture on "Alexander Hamilton and Socialism" in the rooms of the English Literary Society As the subject is of deep interest, it is expected that a large audience will be present to take part in the debate which will necessarily ensue.

The mare "Chibby", by Mirmillo out of Mina Troil by Buccaneer, served by Ormonde last February, sold for £1500 to be delivered in Rio de Janeiro, died on board the s.s. Provence, which sailed from here on the 24th ult.. It is a heavy loss for Mr. P. de Biscuccia, who did not insure her.

It is to be hoped that the news about the evacuation of Egypt is not true. If it is, the Grand Old Man won't be Prime Minister when getting outside his next Christmas P. P.

The President-elect is going to start weekly receptions, to enable him to feel the political pulse of Congressmen. The first will take place next Saturday night.

The high tea, coffee and cakes of the Salvation Army has been postponed till the 23rd. The following is the programme:—Tea from 5 to 7 o'clock. Welcome Meeting to new officers from England at 8 o'clock. Major De Barritt, Staff Capt. Bedford and Adj. Bonnet with a number of English, French, Swedish and Spanish officers will be present. Proceeds in favour of the funds.

The last sitting of the Wise Men of the City was dreary as usual; not a spark of fun from start to finish. This is not fair to the public. Councillor Modest Cartabio's resignation was accepted, but that of Dr. Davison was refused by a unanimous vote; also Alderman Crotto's. The Lord Mayor says he wants money for sanitary purposes, but where it is to come from is more than Zadkiel can tell: but it must be had, by hook or crook.

Stealing money from an editor is quite as rare and difficult a feat as purloining a Scotchman's "breeks," and for the self-same reason. Nevertheless, there is no rule without an exception, and we regret to hear that our highly esteemed colleague M. Leon Walls, of the *Courrier de la Plata*, is minus a thousand paper dollars, stolen from his house in Calle Mexico the other night by some heartless scoundrels. It takes a good many subscribers, advertizers and constant readers to put a thousand dollars together, as we know by hair-blanching experience.

We see nothing wildly exciting in our Montevidean exchanges received yesterday. They are still "leaning on the loan" down there, although many long-headed citizens continue to shake their heads and purse up their lips at the whole affair. The *Tribuna* says there is a hitch in the mysterious transaction: there generally is a "tornillo flojo" in everything financial that cannot bear the blaze of publicity.

There was an ugly smash on the Midland Uruguay Railway last week. On Thursday night the train from Salto was thrown off the line near Goñi station by a cow. The locomotive was overturned and broken to pieces, the tender was seriously damaged, and some five cattle trucks immediately behind were telescoped, about thirty beasts being killed. The passengers, who were in the rear of the train, escaped with a jolting, and may thank the cattle trucks in front for escaping alive. The driver of the engine and the stoker were both hurt, the former rather severely. Amongst the passengers was Mr. J. D. Kennedy, Secretary of the Midland Company, very recently arrived from England.

The prohibition to drive milch cows from door to door in the streets has caused a deal of inconvenience to half the families in town and has produced exactly the opposite effect to that intended. The "tamberos" now carry the milk themselves to their customers, and it is found to be three quarters water. Every blessed thing in this exceptionally fine republic manages to come out upside down, especially when there is water in the case: as witness the B. L.

Saint Barbara when the thunder peals. The "vecinos" in all the shabby-genteel parts of town, with the very justifiable fear of seeing the visitor from the Ganges before they give their tailors an order for summer toggery, are calling out for the removal of all the dangerous filth that surrounds their dwellings.

The Galicia will leave Montevideo for Europe to-morrow, and letters can be posted here to-day up to 3 p.m. at the G.P.O.

The Lord Mayor has asked the Minister of the Interior to implore his colleague General Levalle to prohibit all war vessels entering the docks, as, if by any accident the powder magazine of any one if them were to explode, half the Paseo Colon would be wiped off the face of the earth. There is something in this; but the sanitary danger of their presence in dock is much greater. Besides, men of war lying in mercantile docks look very much out of their proper place. They should not be asked to associate with merchant vessels.

A Court of Honour "ad hoc" has decided that the merchant who was challenged to a pistols-and-coffee-for-two affair by a Government official, for the reasons we referred to yesterday, need not accept the challenge. We should rather think not. The numerous attractions of a commercial life would be much reduced were the ordinary risks of business to be supplemented with the additional one of being suddenly qualified, by a Government official, to head a procession to the Recoleta, Chacarita, or British Cemetery.

Olmi holds one of his Imperial auctions to-night. No mart in town offers a better chance of picking up bargains. There is a really wonderful display of furniture, gaseliers and handsome art trifles.

The Tetrazzini affair has been settled by the lady quietly slipping off to Europe while her spouse was in the hands of the police.

Dr. Thome, the distinguished Director of the Cordoba Observatory, has sent a flattering telegram of thanks to Dr. Carles, Post Master General, for the very efficient telegraph service which enabled him to signal instantaneously to the La Plata Observatory in a recent highly important astronomical observation.

That news of the Congo Free State getting heavily "stuck" in Argentine securities raises a broad grin on even the most impassive countenance. There must have been some subtle Oh! Dick force at work when Argentina's Free and Easy banks (the cause of all her financial woes) told so freely on the Treasury of the Congo Free State. What a precious Government the C.F.S. must have to go speculating in Argentine securities. We wonder if the blacks of the Congo have got anything in the shape of a Bateman Legacy as yet. It would n't surprise us a bit to hear that they had.

Here's a decidedly queer story for railway men. It comes from the Great Republic:—"A few weeks ago John Bonker, a Missouri, Kansas and Texas Railroad fireman, had his leg mangled while switching cars at Booneville The limb was amputated and buried in Booneville, and Bonker was brought to his home here. For two weeks he improved rapidly, and then a feeling that the absent limb was in its accustomed place overtook him. A sensation of deep pain in the foot troubled him night and day. The hallucination grew and Bonker was unable to sleep at night. Instead of a cessation of the pain with the passing of time it increased in intensity, and yesterday the victim's father visited Booneville, opened the grave, disinterred the coffin, removed the lid and found that the toes of the foot were crossed. No other peculiarity was discovered. The toes were straightened, the coffin was closed and again buried, and almost instantly young Bonker experienced a sensation of relief, and he has not yet had a recurrence of the pain that almost crazed him prior to the toes on the amputated limb being straightened."

The callousness of Thomson, the author of "The Seasons", about money matters was truly wonderful, even for a poet. One day, while paying a brewer's bill, he inadvertently handed the man two bank notes rolled together instead of one. The brewer did not discover the error until next day, when he honestly returned the second note. As may be supposed, the brewer was not a little astonished at seeing Thomson pocket the note with the cool remark that he "could have got on without it."

Scene—Bar Parlonr of Inn.—Chilly Customer (turning up his coat collar) I say, landlord, this place of yours is most abominably draughty! On a windy night like this it's hardly fit for a dog. —Landlord: Very sorry. I'm sure, sir; it is a bit coolish, I dare say: but a public house is naturally a "draughty" place, don't you think, sir? Ha, ha?

A very interesting cricket match, "Married v. Single," will be played at Palermo to-morrow. Both sides are fairly well represented, so a close contest is expected. Play will commence sharp on the arrival of the 10.10 a. m. train (Pacific Line) at Palermo. The married team will be represented by Messrs. A B P Boyd, S Carlisle, F Carlisle, B J Dillon, W C Parry, A C Low, C R Thursby, A Virasoro y Calvo, A Williamson, C R C Miller, J F Macadam, Christopher Hill and W H Scholes. The bachelors will be picked from the following: Messrs. J Gifford, E Gifford, W E Coubrough, C W Thompson, G A Thomson, G Harkes, D J Stokes, T E Preston, F E Jones, W H Masters, A Bowden Smith and A Lace. The ladies are all on the side of the married men and back them to win. Now bachelors, look out, or get married.

"The boy stood on the burning deck"—
no doubt he stands there still;
"Curfew shall not ring to-night," for the
sexton, alas, is ill;
"Mary had a little lamb," but it's grown
into a sheep,
And "The English! The English for
ever!" is "the murmur of the
deep"!
"Led me kiss him for his mother," said
the blushing girl,
"Fair! Fair! with golden hair" all
tangled, and out of curl;
"The Walrus and the Carpenter were
walking hand-in-hand,"
And the SELLING-OFF at "THE ENGLISH"
is the greatest in the land!
"Come into the garden, Maud," to finish
that cigarette;
[They've never met in all their lives, so
they must be "Strangers yet!"]
"The Song that reached my heart" was
on organ-grinder's wail,
And "to be healthy, wealthy, and wise"
for life, go to "THE ENGLISH" SALE!

## Ancient Map
OF
## IRELAND.

There is at present on exhibition in Mr. Peuser's window, corner of Cangallo and San Martin, a magnificent map of Ancient Ireland according to the Four Masters. It shews all the tribes and families from the first Milesian Kings, with the territories belonging to each, down to the time of Queen Elizabeth. There are over 1500 names, all of which are household words wherever Irish settlers are found The owner of the map has placed it at the disposal of the Committee of the Boys' Orphanage, to have copies engraved for benefit of that institution. The committee have arranged with a lithographer for the sum of 300$ currency (provided subscribers be forthcoming.) Mr. Peuser has generously offered to print and provide the cardboard of 500 copies gratis. Subscription 25$ per copy. Names of subscribers may be sent to Mrs M. G. Mulhall, President of the Boys' Orphanage, STANDARD Office, or to Mr. Peuser.

## ON 'CHANGE.

Tuesday, September 6th 1892.

The gold market ruled very steady this morning, but the speculation has not yet recovered yesterday's fainting fit and much weakness underlies the apparent steadiness of prices. An optimist feeling is daily gaining ground in the hall, as the new Cabinet Ministers of the Saenz Peña Government inspire confidence. Such names as Quintana, Romero, Victorica and Zorrilla are among the best in the land, and it is understood that a similar process of selection will be observed for all posts in the Government House. There may be still some anxiety as to the split in the Senate and Deputies, but these are dissensions of a local party nature that will not affect the general formation of the new Government. The market views the situation with favor and is inclined to support a bearish campaign in gold, and this morning's steady prices were quite a surprise to all.

The gold business of the first ring did not amount to much, but the bulls managed to maintain a firm front in spite of the tottering features of the speculation since the announcement that Dr. Romero would be Finance Minister in the new Cabinet. About nine thousand ounces changed hands for cash; the price opened at $52.80, fell to $52.70, and closed at $52.80, say 224 41% premium. Fluctuations during the morning did not exceed ten cents, and brokers complain of the dullness of affairs. One hundred sovereigns only were sold at $16.40, say 225.38% premium. In some speculative quarters it was whispered that some parties have run "long" of gold and are eager to unload; in others, however, there is a plausible conviction that the periodical purchases for account of exchange in certain high quarters explains the steadiness of quotations, and that operations will probably contiuue till to-morrow if not longer; but for this prices would have fallen headlong to-day.

Patriotic Bonds were very firm at 72.60 for cash and 72.50 for to-morrow; a fair amount changed hands. Internal Bonds were dull, but firm, at 68.30. Catalinas ruled very weak; in this regard we must state that an interpolation appeared in this column in our last issue announcing that fifteen thousand shares of the company had been sold "short" yesterday or in "descubierto"; we know of no such operation, which may be a merely speculative rumor to influence prices. There are a great many small dabblers in this stock; they are hangers-on who cling to the railings round the brokers' hall and gasp at every rise and fall in the stock; they are a faint shadow of the dabblers of the days of boom who speculated in National Bank shares and Constructors, and were in constant perambulation between the portals of Congress, the Government House and the black-board in the hall; they have fallen in this speculative world from the category of dealers with some kind of capital at their back to the level of lame ducks, gutter-snipes, fledglings, etc. It would be difficult to imagine that in such a speculative crowd fifteen thousand shares could be sold "short" or otherwise without causing a wholesale slaughter in the feathered tribe, and the report may be safely put in quarantine. Over thirteen thousand Catalinas were sold this morning; the price for cash opened heavy at 11, fell headlong to 9.80, rallied a little, rose to 10.60, and closed weak at 10.20. The price for the end of the month closed at 10.40.

Municipal Bonds dragged at 58.30; there is little or no demand for this stock, in spite of all the advantages, privileges and guarantees attached. Argentine Gas shares sold at 50 and Banco Colonizador shares at 20. Obligaciones were steady at 1.90, whilst La Plata Cedulas were dull and weak.

Exchange rates were maintained at yesterday's rates. Discounts were easy.

Bonos of the La Plata Mortgage Bank rose to 22½% of their face value this morning. Cheques of the Provincial Bank were quoted at 37½% discount.

Messrs Wilson Sons and Company have sent round interesting circulars with full details of port charges, wharfage dues, depth of water, advantages and disadvantaged etc. here, and in Montevideo and La Plata. The circular is valuable to shippers.

We see by advices received from Paraguay that they have a mortgage bank up there and that a great deal of property is being sold under foreclosure by the bank; as we have no advices of what the Cedulas are worth and there is no Bolsa in the place where they are quoted, we find it impossible to say what the properties are selling for; but it is to be supposed that they are going very cheap. In the town of Villa Rica all the assets of Perry, Cutbill Delungo and Company, English railway contractors, are being sold off by order of the Judge. Also a valuable brick fabric belonging to the same "concurso." On the 20th inst. Mr. Ismael Billordo, auctioneer, will sell 32 leagues of camp in the 3rd zone of the Chaco adjoining the lands of Sr. Zambonini and of the Colonizadora Alemana; the land will be

sold in lots of 10 square leagues each and at the same time a valuable yerbal will be sold at auction. It is situated on the Alto Parana at a place called Pirapita, 5 leagues from the coast, has an area of two leagues and 1,700 squares, and gives an annual yield of 6000 arrobes of yerba. The yerbal was worked in the year 1881 and since then has not been touched. It consists of very lofty and large yerba trees, most of them virgin, and those cut with 12 year shoots. The land is crossed by several arroyos which fall into the river Manduy. The property can be bought without any money whatever and payable in yerba. We give these particulars about this property as it is possible there may be some here interested in the auction. A large troop of novillos arrived in Asuncion from Curumba, sold for $200 paper each. It was rumoured that a valuable coal mine has been discovered in Lambaré; the news spread like wildfire through Asuncion, and many parties left for the cerro of Lambaré to see the new coal. The Government has applied to the Legislature for $150,000 to foment immigration; we suppose the Legislature will grant it, but where to find the money is the rub. The Government has declared the 12th of October "feriado" in honor of the discovery of America, of which Paraguay is a component part The Legislature has, in recognition of his long services, conferred the right of citizenship on our old friend Dr. Stewart and the freedom of the city of Asuncion. Paraguay owes much to Dr. Stewart; and we trust that this tribute of esteem paid to him by the country of his adoption will not deprive us of his services as British Consul in Asuncion.

Next week we believe the market will get an insight into the programme of the new government. As far as we can gather, our new Mintster of Hacienda meditates a complete reform of the currency, based on a specie reserve. The Minister must always bear in mind that although we all hope to see some good and lasting reform carried out, still a violent drop in gold would be most injurious to the country's interests, and no violent measure can prove a lasting or permanent reform.

People who are anxious to keep up the present price of gold attach enormous importance to the news from Egypt and the public health in the Boca; both these subjects were much discussed to-day, and a good deal of fuss made about them.

Nothing but good news now, and the market is on a boom of rumours, which, although pleasant to believe, require much confirmation. Mr. Anchorena is to be the president of the Banco de La Nacion, and Mr. Aguirre the president of the Caja de Conversion; no nominations could be more popular in the market, and the names of Romero, Anchorena and Aguirre form a species of financial triple alliance which will carry the country triumphantly through all its difficulties. Add to this excellent news the 10,000,000 of marks gold coming to this country from Germany to increase the capital of the German Bank, and a good round amount which the new English Bank of the River Plate will now begin to draw for, in order to commence operations, and we find that the new Saenz Peña Government begins with a very capital start. The probabilities are, therefore, that if we have a good season and no political troubles, the country will be out of the mire in a very short time, as the whole market here believes in a fall in gold and a general improvement. With good honest men at the head of affairs and a little fresh capital coming to us from Europe, we may look forward to good times in the market and in the country.

Mr C. C. Day who is chief cashier of the English bank of Rosario, has been appointed accountant to the Rosario branch of the new English Bank of the River Plate. He leaves his post in the British bank of South America here to take his new position in Rosario, where he is much esteemed and has numerous friends. Mr. A. H. Boutell has resigned his post as manager of Jewish colony of San Mauritio.

The following fresh advices received by mail from England respecting the wool market will interest our numerous country readers, as at the moment wool news possesses more interest for us all than even the debates in Congress A London paper say:—

"There has been a well-sustained inquiry on the London wool market principally for 'withdrawn' lots here, and quite an average 'between sales' business has lately been put through, at prices which denote a slight but decided advance on the low rates current at the close of the public sales over a fortnight age. This is a valuable indication just now of the tendency and spirit of the market, The Continental advices are also of a fairly reassuring nature, though there are still complaints of 'no margin' of profit. The fresh arrivals for the September sales have made but little addition to valuable stocks, owing to free direct forwardings."

Although the wool season here may now be considered over still we note there are always wools arriving. 30,000 kilos entered yesterday and were at once sold, and on last Saturday a large business of 100,000 kilos was concluded in the deposits, delivered baled. Yester day another 100,000 was sold on the same terms, and to-day we heard of a still larger business, the price paid being from 9 to 9.15. Some lots of lambs wool that came in by train were sold at 5.80 to 6.50, and the wool brokers say that this week some important contracts for the new wool will be concluded. The estancieros are coming to town to get money for the shearing. Shears are selling like hot cakes at from 18 to 20 dollars the dozen. For some very swell shears they are asking 9 dollars gold, but no sheep-farmer in the country can pay the price.

There was a 'stand from under' feeling in the Catalinas market when the news spread that the arbitration proposed had all ended in smoke, and that Dr. Latorre who was named arbitrator by the Government had declared arbitration unconstitutional and illegal. The shareholders now will have to march in a body to Congress hall to demand their rights, which we hope they will get, as all must admit they have been greatly victimised.

Mr. Rom's financial paper, the *Economista Aagentino*, has a very able article on the new National Government and the absolute necessity of a reduction of the staff of public employees and economy in the administration. He has also a very interesting article on the colonies in Santa Fe and shows that the English insurance companies have lost the insurance of all the steam flour mills in the colony by charging the enormous premium of 2½%. The millers have clubbed together and started an insurance company of their own and insured the mills at 1½%; and next year it is to be reduced to 1%. A colonist who has made much money, Mr. J. Golletti, has started an agency for bringing out the friends of colonists, advancing the passage money and so forth. In all the colonies one sees nothing else but placards announcing this agency, which is doing a roaring business. At Villaggi i Mazzoni de Pilar they have started a steam fideo factory which turns out 1000 kilograms per day. Mr. Carrasco's article on these colonies is really most refreshing reading, as also Mr. Barés's article on the Pampa Central, which we propose translating.

The decision of the La Plata courts yesterday in the Mortgage Bank case with Mr. Mendez has as anticipated, been against the bank. Mr. Mendez it may be remembered offered to pay off a Mortgage in cedulas and bonos, the Bank refused and he deposited in the Bank the cedulas and the bonos; the lower court decided the case in favor of Mr. Mendez; the bank appealed, and the decision yesterday was against the Bank and in favor of Mr. Mendez; but this only establishes the right of mortgagors to pay off the capital in cedulas and the service in bonos, but not to pay the whole amount in bonos.

The gold market ruled very bullish at the second ring, but a small business only was posted on the slate. About eight thousand ounces were sold for tomorrow; the price opened at 52.90$, rose to 53.20, and closed at 53.10, say 226.26 % premium. The report of a case of cholera in the very centre of the city helped to put up the price of gold. Three hundred sovereigns were sold at 16.45$, say 226.38 % premium. Catalinas were slightly firmer at 10 40. Patriotic Bonds were steady, but Internal Bonds were a shade weaker. La Plata Cedulas closed heavy at 29.60.

In re P. Gartland v Banco Constructor de la Plata about the possession of the Pasage Juarez Celman and market, on the Avenida Montes de Oca, Dr. Garay, Civil Judge, has given sentence in favor of Mr. Gartland.

Mr. Freund writes from Concepcion that he proposes starting on 1st. October to visit the Tolderia in lot 149 of the Chaco Paraguayo, and he invites any owner of land in that section who may wish to go and to accompany him. He says all they will have to bring is a saddle each.

## CHARLES OLMI
A SPLENDID PROPERTY
**9 yards front by 30 deep**
Seven rooms, solidly built, bath-room, w.c., coach house, plastered ceilings and boarded floors.
2118--Cochabamba--2118
between Pasco and Rincon
**Upset price: $8,500 m|n**
If I take into consideration the splendid state of the property, the rent it gives ($125 m|n per month) and the pretensions of the owners in that neighbourhood, the conviction is forced upon me that the upset price of $8,500 m|n is ridiculously and absurdly low.
It is only because the owner is forced to leave the country that such an opportunity as this could arise.
On Sunday, 11th of September
at 1 o'clock sharp in the afternoon
I will proceed to sell at public auction with the upset price of $8,500 m|n this magnificent property, which can be seen any day and evening after Thursday 8th.
Titles are perfect, and can be seen at my offices
566--PIEDAD--566
The furniture which adorns this house will also be sold by auction, according to the aviso following this one, on the same date, Sunday, 11th inst.
The sale will commence at 1.30 p. m., after selling the property.

are not the only people who have taught the world at large what is good for breakfast. In America we know that maize in various forms, such as corn-cake, mush etc., is found on every breakfast table. In Argentina too we have risen above the 'puchero' and 'asado' and porridge made from the new Argentine preparation is as common now on our breakfast table as is oatmeal in the cold North.
"The New Digestive Food," made from the finest samples of wheat grown in the Republic, is a perfect substitute for the oatmeal of Scotland, and at half the price here and without the objection of oatmeal in midsummer. Those who have not yet taken it should hasten to try it, as, without doubt, they will find it the best bone and muscle-producer, not only for themselves, but for their growing boys and girls. **SHEEP DIP**

TRADE MARK

AGARICIDE.

We the undersigned, hereby bear testimony to having witnessed the dipping trials made with the above dip on two flocks of sheep badly infected with scab, at Mr. Patricio Ham's Estancia "Santa Margarita" (Capitan Sarmiento F. C. C. A.), on the dates of May 21st and June 13th 1892.

The dip was mixed in the proportions of one part of dip to forty parts of cold water.—The Sheep and lambs alike were passed through the bath, and we noted that not one single case of poisoning occurred, nor were the sheep uneasy afterwards, proving that the dip contains no poisonous or burning properties.—At the end of June we testify to having examined these sheep and found them **absolutely cured of scab with only once dipping**. We noticed also that they had improved remarkably in condition and that the wool shewed no signs of discolourment. We have every confidence in recommending the "**Thorncliffe Sheep Dip**" as one of the safest and most effective dips that has ever come under our notice.

**DONT READ THIS**

Some days ago two travellers arrived in this city intending to go all over Argentina, by chance they found out (probably seen aviso) that they could see all this beautiful country by simply going to Arturo W. Boote & Co. They called at Cuyo 767 and had a look at their views of Argentina. Their surprise was great when they found that they had gradually been all through the Cordillera de los Andes, Mendoza, Tucuman, and lovely Cordoba, (Cosquin and Alta Gracia) Gauchos and camp scenes 'took the cake.'

They had splendid albums given them for all the Photos they purchased and they went on their way rejoicing and hunted up their friends to recommend them when wanting Photos of Argentina to call on.
